Profile of Services

- ✓ We design email marketing campaigns to create a viral method to drive up sales, brand, authority status, and subscribers. Our approach differs from other EMail Marketing systems in that we design your email campaigns, then we email each campaign for you. Just tell us what you need and we'll take it from there.
- ✓ We analyze each email campaign to create better performance. We also track your subscribers: new additions, removes, modifications, unsubscribers and segmentation. We track it all.
- ✓ We saw a real problem with existing email marketing and communications tools that are often times unnecessarily complicated and time consuming. We pick up where those tools and services leave off.... We Design, We Email, We Track!
- ✓ We received this review from Brian Boylen, "It's been kind of a secret weapon for me. It's really been a life saver and time saver."

Market Profile

- ❖ We work with industries where retention of a client is of value where we can help them build stronger and valuable relationships with their existing customer base.
- ❖ Our ideal client is a business that is required to remain connected with their clients and/or customers frequently but falling short every week or month. Also, businesses that need to market more effectively to drive their brand awareness, expertise, and authority such as:
 - CPAs
 - Doctors (augmentation specialists)
 - Health & Wellness
 - Massage Centers
 - Real Estate
 - Music Labels
 - Restaurants
